

GAME OVER: Medicare data shows the COVID vaccines increase your chance of dying

This is why the CDC has NEVER used the Medicare data to prove the vaccines are safe. And this is why NOBODY in mainstream medicine wants you to see this data. EVER. They ALL want it hidden. FOREVER.

Nota Bene

This may well be the most important article I'll write in 2023.

In this article, I publicly reveal record-level vax-death data from the "gold standard" [Medicare database](#) that proves that:

1. The vaccines are making it more likely that the elderly will die prematurely, not less likely
2. The risk of death remains elevated for an unknown period of time after you get the shot (we didn't see it return to normal)
3. The CDC lied to the American people about the safety of these vaccines. They had access to this data the entire time and kept it hidden and said nothing.

If there is one article for you to share with your social network, this is the one.

Executive summary

Isn't it a shame that none of the world's governments make the vaccination-death records publicly available? My claim is that if they did that, it would end the debate instantly and prove to the world that the vaccines are unsafe. So that's why they keep it locked up.

But apparently there is one whistleblower who is interested in data transparency.

Last night, I got a USB drive in my mailbox with the [Medicare data that links deaths and vaccination dates](#). Finally! This is the data that nobody wants to talk or even ask about.

I was able to authenticate the data by matching it with records I already had. And the analysis that I did on the data I received matches up with other analyses I have received previously.

The nice thing about [this Medicare data](#) is that nobody can claim that it is “unreliable.” Medicare is the unassailable “gold-standard” database. It’s the database that the CDC never wants us to see for some reason. They never even mention it. They pretend it doesn’t exist. So you know it is important.

Do you want to know what it shows?

It shows that these shots increase your risk of dying and once you get shot, your risk of dying remains elevated for an unknown amount of time. And that's *in the very population it is supposed to help the most!*

Now you know why the CDC, which has always had access to the Medicare records, has **never made them publicly available for anyone to analyze to prove that the vaccines are safe**. Because the records show the opposite. That’s why they keep the data hidden from view and it’s why they NEVER talk about it.

Today, in this article, you will finally get to see what nobody outside the HHS has ever seen before: the “gold standard” Medicare records, i.e., the truth. **You can analyze it yourself.**

The truth is like a lion. You don't have to defend it... - SermonQuotes

This is a great quote. Unfortunately, the "Truth is like a lion" quotation attributed to St Augustine was never penned by him, nor by any notable philosopher, sage or theologian before the twenty first century.

You'll soon see for yourself why the CDC will never release this data and why the mainstream press is NEVER EVER going to ask to see the data: because it would reveal they lied to people and killed over 500,000 Americans by recommending they take an unsafe "vaccine."
