March 16, 2023

**United States Navy JAG investigators on Wednesday arrested disgraced Chicago Mayor Lori Lightfoot on charges of treason, JAG sources told Real Raw News. They have also detained Lightfoot's wife, Amy Eshleman, as an accessory to crimes Lightfoot committed before and throughout the Covid-19 Plandemic.**

**White Hats, our source said, have long looked for an opening to grab Lightfoot, but he, when not in public surrounded by an entourage of security personnel, lived in an impregnable safe room**

—a fortified room that is installed in a private residence or business to provide a safe shelter, or hiding place, for the inhabitants in the event of a break-in, home invasion, tornado, terror attack, or other threat—inside his brownstone on the northwest side of Chicago.

When Lightfoot was disgracefully eliminated from Chicago's mayoral race earlier this month, his security detail seemed to evaporate, leaving him exposed. The Deep State, our source said, likely defunded Lightfoot following his abysmal performance at the polls. Lightfoot's popularity among Chicagoans waned during the Plandemic as crime spiked and looting and mayhem ran rampant, further imperiling a city infamous for soaring murder and other violent crime rates. It's unclear whether the Deep State orchestrated Lightfoot's demise—it has a history of throwing its own under the bus once their usefulness expires.

According to JAG sources, Lightfoot eventually received payments exceeding \$10m in exchange for issuing draconian stay-at-home orders, forbidding travel, and criminalizing mask mandates, while he eschewed his own guidance—laws for thee, but not for me—and appeared in public maskless to celebrate Joseph R. Biden's stolen victory over President Donald J. Trump. Lightfoot instructed law enforcement to fine and even incarcerate non-mask-wearing Covid deniers while looting, shootings, and arson plagued the besieged city. She went as far as to "cancel" Thanksgiving and Christmas, ordering police to find and arrest persons enjoying the holidays with "family members you don't live with."

The payouts Lightfoot received, our source said, arrived in March 2021, and came from the criminal regime's Department of Health and Human Services and were approved by agency honcho Xavier

Becerra, who remains on the White Hats "most wanted" list.

"We have financial records and communications proving beyond doubt that Lori Lightfoot accepted bribes to endanger a city already in a massive state of decay. He is guilty of dereliction of duty and treason against the United States of America. Vice Adm. Crandall talked to Gen. Eric Smith on how best to catch Lightfoot, and since she was considered a relatively minimal risk target, given she no longer had Deep State protection, they decided JAG would carry out the arrest."

On Wednesday morning, JAG investigators encircled Lightfoot's car after he and Eshleman had entered it after emerging from a Starbucks in the northwest suburb of Barrington. Lightfoot reportedly resisted arrest, and the ensuing struggle caused his sweatpants to slide over his hips, revealing male genitalia. Investigators were forced to use tasers to subdue the duo, who had suddenly turned on each other, with each accusing the other of "selling out."

"That Lightfoot's a dude is no surprise," our source said. "I believe we have sufficient evidence to convict Lightfoot. Eshleman's status is up in the air, but we have proof she knew about Lightfoot's crimes," our source said.

Edit: We have updated the article to reflect exactly when Lightfoot received payouts from the regime.
